# so who the hell cares

Too often we hear of kids that switch off, and of some that have taken the big trip, the addicts, the mentally wrecked, twisted mind, and the misunderstood generation of our Youth.

We hear all this, in fact we see it right before our very eyes, but we just go on living in this mad ridiculous rat race, nod our heads and say somebody should do something to help "those kids" — Who the hell is somebody. It's you and me that must be concerned about our Youth. A meeting of concerned people is being held at the Ringwood Civic Centre on November 25th at 8 p.m. with the view to raising finance for the Youth Project Fund, which includes the Coffee Shop project planned by the Ringwood Youth Activities Committee. Finance raising is where an awful lot of people switch off and the rot of apathy sets in. Let us show the Youth of Ringwood we are prepared to at least try to understand them. Support the Ringwood Youth Activities Committee. We need your help NOW!

Dear *Mr. Pullen,*

You will recall the youth survey held last year in Ringwood and the subsequent publicity that resulted about youth needs and activities.

Following a meeting in April this year, chaired by the mayor of Ringwood, a committee was formed to further investigate the establishment of other youth facilities in Ringwood and to take any necessary action.

One of the 'Projects' being planned is a Coffee House, an open type of youth centre which was requested repeatedly in the survey questionnaires by the young people who participated.

The committee realize the success of this project will be dependent on people who are prepared to be involved. It is for this reason we are writing to you to attend a public meeting to hear these plans that have been made.

It is hoped you can attend this meeting and bring anybody you feel who could become sincerely involved this project.

The meeting is at the Ringwood library on the ~~9th~~ <sup>16th</sup> of September at 8 p.m. **1971**

Yours sincerely,

*Theo Leduc*
