

Alan Harold Wieland.
story of his side of the
family (Hanke)

Alans war records
are all in here too.

Alan Harold Wieland my
uncle + my Dads $\frac{1}{2}$ brother.
They had same father but
different Mothers. Dads
mum died of consumption
young. So did Alan's mum
who was a Wanke.

Alan had a sister
called Daisy, who died
as a child. Alan never
new his sister -

He had 2 elder $\frac{1}{2}$ brothers
Norman + my dad Stan
Wieland. His father was
Ernest Ferdinand Wieland.

2

He died 8th Sep 1945.

Alan's mums name was
Pauline ~~+~~ Francesca Wanke.

Grandpa Ernest Ferdinand
Wieland married 3rd time
to Beatrice Stearne
died March 1947.

Alan died 10 May 1992

Stan died 23 Feb 1972

Great Grandad Carl Ferdinand
Wieland died 12th Jan 1902.

He was a Sailor in Silesia
Prussia (Germany) + a Farmer in
Heathmont Vic Australia.

3

The Carl F. Kieland arrived in
Australia from Hamburg on
the Helene ship Jan 23rd

Mr. Wieland
"Blue Hills"
Dal Monte Grove,
Kallista
Victoria

Good Companions' Camp.
Bronkuk.

19-1-59.

Dear Mr. Wieland,

I am hoping that I have happened upon the correct address in the telephone book. I do not know if you really do live at Kallista but it seems to me that there would not be too many of your name in the hills so close together.

Shantabai & I wish to thank you for your great kindness to us last Friday & Saturday. It was a very real pleasure to go to "The Patch", & we wish to thank you for the share you had in giving us both such a happy afternoon & evening.

Mrs. Washford is another of the wonderful people who do all they can for the Kingdom & no doubt there are many disappointments for you both, however God always sees that there are happy occasions also which make up for any disappointments.

After being at Boronia all day yesterday we returned here for a little longer. The children seemed so disappointed that they would not be seeing more of Shantabai so we decided to change our plans for today &

tomorrow & stay here a little longer.
It is so important for her to get to know
the younger people too.

Truly it is very hot, but a cool
change will come in good time. We
should be very grateful that so far there
are not bush fires. It must be very
dreadful to be in the hills or anywhere
with bush fires raging.

Thank you for bringing Mrs. Washford
over on Saturday evening & especially
for your great kindness to us both!

Yours sincerely,

Eana Tawau.

MRS C. D. TALBOT

Kallista Vic. 3791
Sunday evening.

"Sneezing" - Everyone!

Havent bought any Christmas Cards
again this year. - No this note will
have to suffice! Had a severe thunder
storm earlier - passed off - now on again.
The rain will do the garden good. I
have sweet peas in bloom very long
stems. Silver beet going to seed. Lettuce
growing rapidly, as are the couple little
Amaranth bushes about 2 ft 6" high. My
transplanted cucumbers died. The garden
bolls very full. The lawn was come
flying - calls every 2nd Friday at \$1.5 a pop
from our church. Had 120 there last
Sunday - 98 Sunday before. Today about 90. Our
minister with others is on a 2 week
brush walk thru Jamlorine lots (I stand
fast + acorn odors paid. Hope the
leeches + snakes arent too bad.
Bent's for note and paper. How is it
going? dont let it get too big this time

Had our cake stall at Kallista market
Saturday - took around \$150, had cleared out
by 10-15. Through lack of support - only
about 6 of us. If every church family were
to make scores behind cakes etc we would
clear about \$350! But some people that care
Own "white elephant" stall is getting into
swing for March - we usually clear about
\$1000! A dear church friend had a stroke
3 weeks ~~ago~~ (the store keepers wife
found him lying in gutter and rang the
ambulance.) His leg paralyzed all down
right side - is now getting better slowly
but can say a few words. Thes in an English
nursing home, it is coming to lunch so Sunday
is a wheel chair. The church youth are
paying his taxi fare (a very how does eyes
new - and spruced. They find it 86 and
wants to die - but his heart (of gold) to strong.
I've only made one attempt to enliven
and hope died 4th Dec but do not recall
what year. Hope to go to Cemel again before
Christmas. F.T.C (where I've got my lawn plot
it was full) Well that's it for this
time. Have a very happy Christmas
everyone! Mine will be very quiet after
a church service. About 20 of us had our
Christmas Dinner, 2 Sundays ago. Everything
Turkey, roast veges, plum pudding etc. The church
is having a "Buck up" on 2nd at a members home
Do not forget your Christmas Eve...

28 Spehr St
Millercent 5280
Nov 16th 1982

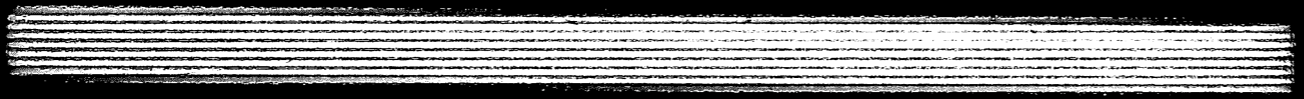

Dear Alan

Good to hear from you, & all those old folk who have now gone to rest. I know them all, but am not very sure of the person next to Herman, "could it be Uncle Paul?" That young woman that Adelaide does not know is a Mrs Blatchard. She married a man who used to work at Pauls Orchard & got into trouble. Grandfather Aunisch reared her as she was his daughters child, her name was Hannah who got into trouble on the sly & produced a baby girl, later on she married George Abission from Berwick, then she left him & ran away with another man to Sydney there she lived with him for fifteen years & when he died she came back to Victoria with her unwanted daughter & forsaken husband George Abission who was then 90 years old. Her daughters name was Lottie

The horse's name was Violet

I knew all those good old people as I used to go over & see your mother, & I met a lot as the Church of Christ, & often had dinner with the Finger family. I used to ride over on a pony from Hillside & stay the week end. I used to like Susie Burton, she died very young with a kidney complaint.

Now about Auntie Ruth, she has been home for a week as Shirley is here looking after her, & she has had a very good week she is up & down all the time, it is a very trying time as we are all on edge. Auntie Adelaide sent a lovely lot of flowers in a lovely container, so many people are very kind to Ruth & all at the hospital love her & said she never complains & yet she has pain all the time anyway. Alan we are all nearing the end of life journey & the sooner the better as the world is going to pieces. Ruth got your letter while we were up there. Hope you are keeping well love Ruth & family.

4/8/90

Kallista. Vic 3791

Dear Pat Dow & all,

Thank you for the informative booklet & note. Dow you certainly use your brains!! I thought the book very well put together, and nicely presented. I was interested in all the segments!! You may do something or other in the future. I have been there 5 times and never did they were after me as though I was a guest, as though I was the only one there. But haven't the prices gone sky high - The last I paid was \$70 now it's \$118. I ^{would} do for and Pat took to go for the pun. They also have a beautifully laid out "orchid garden" The mid day meal (if you went for the day) is around \$20 - but you need to book and (tell them whom you represent. The meal may even be free!!

I'm glad your flight is returning again and that you like the job!! Pat you may be interested in the Wilsons episode - got it by mail last week - But I'm not interested. Plan a trip to Adelaide mid Oct to again try and find out the missing 4 years of grandfathers (your great grandfather) Am trying some new places this time and it may take a while. I want also to do some trips, to the fallow old house, the gardens etc. am staying out 2 km of Adelaide at "Eastwood" - but the motel price is no cheaper!! \$62 night - staying 9 or 10 days. But the place has just been thoroughly re decorated and in a good area. with a good bus service. (I'm using my fee pension travel pass.) Would love to see Lawson's garden festival - but it's all so far away. Home your garden. Spring is coming to ours with hyacinths, daphne, camellias, rhodod. and early blossoms also japonica and magnolias out down 'city way'. The wattles are glorious also. over

Pat are you still rug making? Very clever! I've used -
This will need be a short note. Balancing pad on my
knees - before the fire. (It was a beautiful Day today, nice
and sunny) The Church building was painted interior
~~this week~~ by voluntary labour. Exterior and bell being done
by a contractor. Soon the central heating will be in,
carpet laid throughout (I believe) the wiring for lights
and intercom etc all done. So now in the odds and ends
Our electrician (voluntary) is leaving on Tuesday for a month
with wife - ~~fly up to Ballantrae?~~ (spelling) so things will
be almost at a stand still. (He's also our fireman) The board
elders / deacons (8) spent last night and today at a retreat -
(planning for next 5 years) They went up to Jindubine - near
Warragul. Our minister & family are very popular.
Oh, I've some beautiful orchids in bloom - another 8-10 ~~with~~
long flowering spikes in my other 4 pots - all indoors. In
different colors - not very keen on them this beautiful.
Ray & Katrina were here last Wed for lunch - was met
Bright - we have potatoes - these everywhere at Ballarat and
oversupplied. Only 5 KG for 99¢ Here these 89¢ KG.
Will Jim be going to get fixed - same by bed - am reasonably well
(We had to vote today & I must have told myself off the voting roll.)
Over 70⁺ are exempt - but cepting the Federal roll.
Well its postage for now - hope you find the enclosed of interest
Everyone keep well and smiling.
Uncle Alan.

PA. Have bought myself a 2nd hand (new) stereo player and tape
recorder - four on treasurer (church) for \$150. Sounds beautiful with
2 speakers.

Mr A H Wieland
Lot/3 Kallista Emera
Kallista VI 3791
Australia

Dear Mr A Wieland,

As you may already know, I have been working in cooperation with Family Heritage International on a project relating to our Wieland family name. Finally after years of effort and considerable expense, we are ready to publish a new book entitled, "THE WORLD BOOK OF WIELANDS," and you are listed in it!

Since you appear in the Wieland 1990 International Registry, we thought you would like to know all about this new book. Using a highly sophisticated network of computer sources in Australia, New Zealand, England, Scotland, Wales, Northern Ireland, Ireland, Canada, and the United States, we have searched through over 150 million records. We have located and compiled the most extensive worldwide registry of families bearing the Wieland surname today. The Wieland 1990 International Registry is a featured section of the book and is as current as possible.

In addition to the Wieland 1990 International Registry, you'll find informative chapters about European emigration to the new world, the origin and meanings of names, heraldry, and genealogy. You'll also find covered specific topics such as:

1. How the old and distinguished Wieland family got its name and what the Wieland name means.
2. Why early emigrants left their birthplace and the fascinating story of their journey to new lands.
3. Newly developed statistical information about the Wieland population in Great Britain, Canada, Northern Ireland, Ireland, America, New Zealand, and Australia and where Wielands live in these countries today.
4. A heraldic blazon granted to an early Wieland hundreds of years ago. This medieval Coat of Arms is translated into everyday language and is fully illustrated by a heraldic artist.
5. How you can use the Wieland 1990 International Registry to aid you in tracing your family tree, in travelling to foreign countries, or in locating lost family members.

This remarkable collection of Wieland information is available only in "THE WORLD BOOK OF WIELANDS." Since it is very expensive to produce extra copies after our scheduled publishing date, there will be only one printing. This first printing may well become a rare and important acquisition for the Wieland family library.

To my knowledge, this is the only international compilation of Wieland families available in the world today and you will want to have your own copy for you and your children. Each copy of this unique book is made to order and will be numbered, registered in your name and accompanied by a Certificate of Registration.

To reserve your own personal copy of "THE WORLD BOOK OF WIELANDS," you must order right away. The total number of copies printed will be strictly established by the number of qualified orders postmarked prior to 17 August 1990.

Sincerely,

(per)

Robert L Wieland

P.S. Even though your copy is printed for you alone, if you are dissatisfied for any reason, I guarantee a full and prompt refund of the purchase price. Please see your WIELAND APPROVAL ORDER FORM for details.

Have new glasses - set on the others
broke frame & lens came out. The vet affair
aka the new ones at once ^{my phone} ^{and service!}

11 Kallista-Emerald Rd
Kallista Vic 3791.

Dear Pat, ~~What can I say about the latest arrival, except~~
'thanks' or lot, and quite a surprise & many many snags
I hadn't seen before - some of your close ups of your own I had
I hadn't seen and will keep. Thanks for duplicates - and the type
which I have heard and now thanks to you - possess!

The photo of me in army is 1943 - and I am sending you the
complete record of my army service - you'll need to read it
carefully a few times to make sense - but sometime would like
it ^{back} ~~copy~~ (only record I have) I really lament any old photos
but will include what I have - mainly clippings of your ^{dad} ^{dad}
in different stages of life - and in hat styles! Enclosed are
2 sheets of joining the Kerang Station (again return when
convenient) with all 'Lumber' + ^{grass} ~~the~~ the fair one - all the
average of land in question - (again return please.) I shall
show Ray the plots when they next visit - but know when
for Ray in a bad way with pained other leg. The specialist
said it has a fine crack - and when the leg finally breaks they'll
have to operate which the I won't do as Ray is simply not
strong enough to survive another operation? He was in hospital
for 4 days recently for 'quartzine' injections to ease the pain.
He now sleeps by the ^{fire} (which is constantly going) most of the
day & is lame by himself - often doesn't have a mid day meal,
but his too heavy - and can't walk to get some of it off, but the
family in mission always do (such as morning as much as they
can - Mammae works like a man! Mammae had his 18th birthday
at last Friday and Sat evening had a small party and tea out
with 8 of his cobbers, who all fauned 18 during August!
Now about the picture (will tell you delay later) Get it framed
(over)

and the painter packed it² up ready for Despatch. Its only done
up lightly - very spongy - but almost twice its size. Its
only 18 x 24 plus frame. Now him packing it up straight
away stopped me from fixing it home to freshen it up.
But you may be able to do it yourself. He Evans on a hard
wore that will love a 3/4" or narrower brush - 90° to 120°. An
artist shop will have small bottles of Turp oil, they may cost a
lot more - up to \$2 & mix equal parts - not much, and paint it all
over the picture, it will come alive at once and shine like a
brilliant star! do same with any of your other oil paintings - but
unfortunately it doesn't last. I'm not sure if - will like it. Done
in green, black, white & yellow and a little blue. I have it
already addressed and will try and get to town next week or
the next - will try and Airway freight first, addressed to
Greyhound Beach Dept with your name. If so dear will try
next Greyhound. So please be patient! Had an accident last week
and getting around left sided. Didn't lift my feet high enough
and fell on a concrete slab - Str my right leg just below my bed
knees, I went down with force, the wound about 4" x 6" long and
broke at the sliced off with an electric knife - tore a hole in
my good trousers - it happened at Kallista and I had a small
bunch of callias + daphne in one hand - took me a while to
get up and stop the bleeding. Several visits to Dr. who gave
me several dressings & elastic bandages, thought first I'd need
a skin graft but that's no longer necessary, and things are drying up
but it may be a couple of weeks before I can walk properly, or
get to town with your picture and to visit Fletcher Ind, re repair
I also ordered for them another pair of grey shorts trousers, some
weeks ago, but my friend's death interrupted - now that's! But
all will be well in end. It was a real blow Richards death,
there were at least 150 at service for church, at grave side and
back again. Our loyal ladies catered admirably for Wayne and
lots of cakes over. These really marvellous! Buried at Waverley
Emerald cemetery. Very well kept and dozens of golden "Coral"
Nettel in bloom & giant bushes of heather (not heath) also in bloom

of Ireland - Remember Slighter, the day you were down.
Well this been there for 12 months on a Scholarship worth
\$15,000. Passed all subjects with credits, and a final one recently
got her a job with some big Asian organization, but think
she returns home at Aunorley? O, stand, next month for a while
she'll also travelled thro Europe Germany for holidays. Two of
our Church folk - mother & daughter are away there for 4 months
organized by some music group - singing in a place choir, of
a few thousand voices!! At present they're in Naples, (Italy)
Isn't the trouble in N.C. disturbing - a glaring example of man
greed? heard last week that Iran's debt exceeded \$600 billion!!
no wonder he's after the oil fields. Lets pray for no war,
Well the days are drawing out - but here anyway - temps
about same and very little sunshine - either drizzling or showers
you rattle and rattle. The best is just festooned with soft
golden blooms - and of course since last I wrote the white
and delicate pinks of blossom, at their peak - also cornellias
Will you miss the floral festival? There are 7 day work fairs
visiting there - but all leave from N.S.W. - also others for the Canberra
one. Must book for Adelaide soon as leg gets better
I still feed the wild basella (brinjal - blue green) 40 odd of the
hungry little "brats" who fight and squabble as they depart!!
The new budget arrangements will only cost me about \$5 per month
and as far as only \$2000 in bank is concerned, well I still have
a bed to put it under - In very lucky - food when I want it, and
a roof over my head - But the cash aside is for my funeral!!
and I do get some discount on phone, electricity, gas, & rates, paid last
instalment last week, & the water rate on Monday. My rates are
around \$200 a year. Are yours dear too? Well I must ring off, its fast
bed time & electric blanket been on 1 1/2 hrs. Thanks again for letter
and all the enclosures, photos etc. I was in Cant Aust 29 months -
Oswestend Adelaide N.6 Malvern L.A. W. M. + BARNES + BREWSTER? and last
to be discharged from unit. (Was sent to Heidelberg for 9 months)
my discharge rank in army was CPL. On a Sgt's school and night school. Will tell you of
when dad died & came home to help. U.A. view fairly well since

But the plot even there was \$400! P.T.G. now full except Dr
Johnston and myself - in lawn part like a bowling green!
Jean has almost finished packing and the cash settlement for
house is next Friday - a very old house - lovely garden, they
had many people through and projects. The two who bought it are
as both males and engaging an architect for a new house, it
buts onto the Sherbrooke forest - a very rare sight - secluded,
Jean is stamp furniture and going up to daughters at
York and dials for a break - they have room in their newly
built modern house, after that they going to Belgum Heights
to a friend - not now going into the flat for which they find
them deposit at Teesdale. It hasn't sunk into Jean yet - and she
is also selling the nearly new 2nd hand car. Two days ago she
returned the ticket I gave them. 4 beautiful spikes of bloom
also Dicks plants, bushes etc - also a 1/2 finished picture 4'6"
by 30" for our church treasure - they're in a bind at present.
Jean wants me to finish it - don't know yet. Our church
now has been painted inside & outside, ducted heating installed
and son carpeting right through. Opening date Sept 16th and
help me - do down to arrange the flowers.

You did send a mess with your ailment hope you really
soon get back to normal - and your recuperation certainly
made a difference to your letter writing - 8 pages this.

Do hope you enjoy your holiday - yes I saw the nature
TV film including O'Reilly - the wild life there is amazing
at dusk the goats feed (outside ^{dining} ~~side~~ door) the parsons and
sugar gliders - including a black parson. They come down for
bread spread with honey & sugar. They also have night
walks to the 'glow worm' cave. In summer every night seems
good to hear Willie Albert still keeps in contact I went to
all the places he did plus Norway France & Ireland, talking
(I went for 4 months being day a holiday)
and slept near York & Louth etc)
