Bonus to Laboratory Assistant

Mr. Hamilton has during the year acted as Janitor at four Matriculation Examinations. For his services on these occasions a charge has been made by the School: it is now recommended that a Bonus of £8. 0. 0 be given to Mr. Hamilton in recognition of the extra duty performed.

Collections of Geological Mineralogical & Fossiliferous Specimens submitted by Mr. Strong for Sale.

One set of each Collection has been sent by Mr. Strong for inspection. The cost of the several Collections is £8. 8. 0. Mr. Strong previously offered somewhat similar Collections to the School who were declined, and subsequently being offered to the Wesley College Melbourne were purchased for that Institution. Mr. Ulrich recommended the Council to become the Purchasers.

Appeal to Wealthy Colonists for Fund

It is suggested that applications to the Government & Parliament for Fund having proved unsuccessful, an appeal be made to the wealthy men of the Colony and elsewhere to furnish means for the effective establishment of the School.
