

[The Bishop having other engagements
he took his leave]

3. A. Stoelscher moved
J. Robson seconded and it was carried

That the following gentlemen be
appointed Lecturers in terms of the recommend-
ations of the Committee of 8th April 1881, viz

Joseph Flude	£75	for the	24 hrs weekly
John Victor	60	April	18 - -
Ferdinandus Krause	60	Term	18 a -
Charles Thomas	25	July	4 - -

and as Assistant in the Laboratories
Charles Flude £37.10.0 for the April Term

omitted
vide previous page

The Registrar suggested re Appointment of a
Committee as proposed on the 8th instant

That such Committee might consider & report on
The Lecturers requisite to teach all the Subjects

The hours of attendance = Lectures during Vacations
remuneration and mode of Appointment

The Students' classification - ordinary: special: free

The Subjects, and their increase so as to include
Drawing: Mechanical Engineering: Engine-drawing:
Mining: &c

The Certificates not receiving Government recognition
in all cases

The Incorporation & Liberty &c

The Registrar also suggested the advisability of
an addition being made to the Annual Report
in the way of a map of portion of Balaassat
indicating the position of The School

The Bishop having expressed himself very
strongly in favor of the appointment of such a
Committee as had been recommended, excused his
longer attendance, having other engagements

A discussion then ensued re Registrar's suggestions
and it was resolved

That no further expense be incurred in
the matter of the Annual Report

That the Registrar forthwith prepare
a paper showing all particulars relating
to the several Classes in The School and
submit the same to the Vice-President for
further action.
