

No	Name	Character	Locality	Donor
1121	Felsite Porphyry	<u>Orthoclase Rocks</u> Red dense felsitic base with crystals of pink orthoclase and grains of quartz and chloropyrite. Turo, Cornwall.		
1142	Leucanite with lithomarg decomposed felsite, altho dyke		Hepton m. W. Aylesford	
1143	Felsite Porphyry	Dense, yellowish white, rock silicious base with sparse quartz crystals.	Kawlestone Collier N. Kent. Surrey 1872	
1144	Felsite Porphyry	Red base with xls of orthoclase quartz and black mica.	Mohorn near Meissen Saxony	Purchased.
1145	Quartz Porphyry (acidic igneous)	Pink micro-granitic base with sparse quartz crystals	Hilbersdorf near Freiberg Saxony	Purchased
1110	Felsite Porphyry	Greenish felsitic base with xls of quartz, sparsely distributed, and pyrite.	Freiberg Saxony	
1146	Quartz Porphyry	Compact Crystals of quartz & pink orthoclase in a brown base	Lochsteine near Altenberg Saxony	(Purchased)
1147	Quartz Porphyry	Compact Crystals of quartz and yellowish-white orthoclase in a brown dense base	Hilbersdorf near Freiberg Saxony	Purchased
1148	Quartz Porphyry	Compact Abundant quartz crystals in a pink, rather decomposed base, thickly studded with small crystals, the result of weathering.	Hilbersdorf near Freiberg Saxony	Purchased
1149	Syenite	White orthoclase with an excess of blackish brown hornblende	Dykes in mica schist at the S. primale 13 miles S.E. of Silvertown Barrier Ranges N.S.W.	
1150	Syenite	Fine-grained Actinolite & orthoclase	South Australia	
1151	Syenite	Normal	Gyischewitz near Meissen Saxony	Purchased 1878
1152	Syenite	Normal	Pleuen near Dresden Saxony	Purchased 1878
1153	Syenite	With accessory quartz.	Reichenberg near Meissen Saxony	Purchased 1878
1154	Syenite Porphyry		Woitzenburg Saxony	Purchased 1878
1155	Minette	Contains augite more or less altered in chlorite	Leifersdorf near Leipsig Saxony	Purchased 1878
1156	Mica in Minette	Orthoclase greatly decomposed & diffused with Fe. Olivine and Calc. Hexagonal plates of brown mica together with small magnetite, specular iron & pyrite.	Melkydorf near Oederan Saxony	Purchased 1878
1157	Aphanite		Zelle near Nossen Saxony	Purchased 1878
1158	Aphanite & Diorite	Dense, slaty.	Bergschneid, Saxony	Purchased 1878
1159	Mica-Porphyryste	In Labradorite, Augite & Biotite in aphanitic base.	Elbingrode, Harz Germany	Purchased 1878
1160	Claystone Porphyry	In claystone base crystals of orthoclase & quartz.	Mohorn near Freiberg Saxony	Purchased 1878
1161	Felspar Porphyry	Orthoclase in orthoclase base with decomposed hornblende.	Port Lygonet, S. Tasmania	
1162	Felspar Porphyry	Plagioclase felspar & specular iron in a matrix of micaceous felsite	Port Lygonet, S. Tasmania	
1163	Perlite	Encloses sanidine, plagioclase, quartz & biotite	Schemnitz, Hungary	Purchased 1878
1164	Pitchstone Felsite Pitchstone	Numerous microblites & trichites in a glassy base of globular structure.	Barsebach near Meissen, Saxony	Purchased 1878
1165	Pitchstone Felsite Pitchstone	Encloses chalcedony & quartz.	Kanitz near Gyickau, Saxony	Purchased 1878
1166	(Pitchstone-Porphyryst)	Porphyritic globular micro-felsitic base with crystals of orthoclase and mica & quartz.	Speckhausen near Tharandt near Freiberg Saxony	Purchased 1878

Remarks. Disposal. From what Locality.

No	Name	Character	Locality	Donor
1505	Felsite Porphyry	Yellowish-white dense base thickly studded with crystals of quartz, stained through ferruginous segregation, Colorado. F. M. Struss		1889
1507	Felsite Porphyry	quartz crystals in white felsite. Base of Adam & Eve Rocks, 2 miles N. of Coleraine, N. Ireland		1889
1633	Felsite Tuff	Crystals and fragments of quartz, orthoclase & muscovite in a felsite base, Brisbane, Queensland, Australia		1889
1634	Felsite Tuff	Crystals of quartz, orthoclase & mica in white felsite base, Brisbane, Queensland, Australia		1889
1636	Felsite Tuff	Brisbane Queensland, Australia		1889
1637	Lignite from Felsite Tuff	Brisbane, Queensland, Australia		1889
1638	Lignitous Tuff	Ann Street, Brisbane, Queensland, Australia		1889
1639	Felsite Porphyry	Ann St Quarry, Brisbane, Queensland, Australia		1889
1640	"	Dudmanpilly, Brisbane "		1889
1662	Syenite	Coarse-grained, a chip from "Cleopatra's Needle" Egypt. Ths. Bask 20-11-88		1889
1673	Syenite	Granular, with titanite & pyrite; West coast Nelson N.Z.		1889
1661	Syenite Porphyry	In a micro-crystalline base occur an abundance of crystals of quartz, orthoclase. Affected by decomposition. 3 miles N. of Lambfield		1889
1677	Minette	The hornblende in part altered to magnetite. Newcastle, Western Australia		1889
1679	Syenite Porphyry	Fine-grained, dark-colored base with large crystals of white & red orthoclase, green hornblende, some biotite and a little quartz.	Cominsmont, Tignes, France	1889
1674	Mica Syenite	Medium grained; with biotite.	Quincy, Massachusetts U.S.A.	1889
1675	Minette	The hornblende in part altered to magnetite.	Newcastle, West Australia	1889
1677	Claystone Porphyry	from near Gool. S. Brisbane		1889
