The Visiting Committee's Report was given by Mr Barrow. He said that he and Mr. Herdline had visited the school during the month but unfortunately had struck an off-week when very little practical work was in progress.

In the Machine Shop they were taken round by one of the Assistant Instructors who showed them two new machines in operation. They were greatly impressed by the excellence of the work that these machines are capable of doing and left feeling more convinced than ever that we should make every effort to instal more of the latest machines and thereby provide students with equipment at least equal to that being used in local workshops.
