

incidentally in his report had forestalled much of what they had to say. They had inspected the Commercial classes and the site for the proposed new buildings. They had been informed by the Principal that the amount originally recommended by Mr. Elham to be placed on the estimates for this year in connection with the new buildings was £8000 but recently advice had been received unofficially that that amount had been reduced to £5000 and the plans submitted, reduced accordingly.

The Principal was not satisfied with these reductions and the Training Committee felt that some pressure should be brought to bear on the Department and the Government through our local members of Parliament on the motion to be made in it. Both the Training Committee's Report was received.
