A Report by the head of the art school, Mr D. S. Johnston was also read and received. (Mrs Lynch & Farr)

Visiting Committee's Report.

Mr J. V. Middleton said that he and Mr J. W. Rickards had ^{made} a visit of inspection on Monday, 13th April.

The Air Raid Precautions were well in hand and much protective work had been done. The school was very fortunate in having a caretaker who was capable of doing such a good job with the necessary brickwork. They found that the Essay Department was undergoing a transformation and when finished would be a very efficient and well equipped department. On the passage leading to the Chemistry Laboratories they found the composition floor in a dangerous condition. They then visited the Carpentry Shop where they found junior Technical students busy at work. In the Machine Shop junior students were also busy but owing to there being insufficient small lathes available many of the students were waiting about.

They understood that additional lathes were under construction and suggested that these be completed as soon as possible. The report was received on the motion of Mr Barrow, seconded by Mr Bealand
