12-5-43

failed to put in an appearance.
An effort would be made to obtain another female cleaner for this work
In reply to the Chairman, the Principal stated that at Melbourne Technical College the average cleaning done by male cleaners was a building measuring 105' x 120" and consisting of two floors.
The Principal undertook to furnish a report at the next meeting of the Council on the areas cleaned by cleaners at this school.

New Workshop Unit.
The Chairman reported that on Wednesday 5th inst, Mr. P. Parrish, Chief Architect of the Public Works Department, and Mr. Harrison, Inspector of Technical Schools, paid a visit of inspection in connection with the proposed new Workshop Unit. The plans were submitted to them and he felt confident that their report would be in favour of proceeding with the comprehensive scheme drawn up.

Water Meter - Main Entrance
The Registrar reported that he had discussed this matter with the Secretary of the Ballarat Water Commissioners and had been informed that an application for a 1½" meter in place of the 3" meter, beyond repair, on the

12-5-43 Piping plan would be favourably considered by the Commission. The annual rental for the 1½" meter at the Junior School was £1-6-0.
It was resolved that an application be made for the installation of a 1½" meter on hire.
(Crs Lederman & Beanland).
