The President reported that the
Board of Inspectors, which was at
present at the school, had informed
us that the Education Department
had provided an additional £8500
and that plans were now being prepared
for the ground floor from Albert Clock
to the Plumbing Building to be proceeded
with. The inspectors had promised
that the plans would be available
for inspection by the Council before
tenders were invited.

Visiting Committee's Report

C^r. Lynch, reported that he and C^r.
Nicholson had visited the school
during the afternoon of the previous
day. They first visited the English
Room and liked the colour scheme
with the exception of the red line on
top of the dado. The room was much
brighter and attractive and in
marked contrast to a room immediately
opposite which had a very drab
appearance. The Chemistry Laboratory
entrance had also been repainted
and here also the colour scheme
was a good one. It was noticed that
the floors in the entrance and passages
were rapidly becoming worse but it
was understood that this matter was
in the hands of the Public Works Department.
The Students Room presented a much
better appearance both inside and out
and the garden at the rear of the main
building was tidy and in good order.
They then paid a visit to the junior
school and found that everything was in
good order, the garden in particular
looked very nice.
