

19-4-44 to result in an accident if they were not attended to. The committee understood that the matter of repairs and the erection of balance slabs were in the hands of the Public Works Department and had been for the past two years. In the Chemistry Department the floors in the passage from the Assay and also in the Organic Room were also in a dangerous condition. Otherwise the state of the Chemistry Department was fairly satisfactory although the paintwork was showing signs of discoloration and would require to be renewed at an early date. and adopted.

The report was received on the motion of C. Lederman, seconded by C. B. A. John.

Business Authorities.
