

20-3-46.

The conveniences lower down were out of order owing to fracture of a conduit by a truck of bricks.

We had made enquiries and had arranged for a temporary service to be installed until the permanent service could be undertaken.

A concrete path to the Wiring Room was desirable and, some iron sheets adjacent to the steps at the rear of the Students' Room needed a coat of paint.

The Principal reported that the Contractor was waiting for cement to construct the pathway and now that a Painting Class had commenced at the Explosives Factory the iron sheets and other painting jobs would be attended to in the near future.

The report was received and adopted on the motion of Mr. Hederman seconded by Mr. B. A. John.

Accounts

Accounts amounting to £ 1593-16-8 as per Chairman's Book, folio 64, were passed for payment. (Mrs Fair & Smal)
