#### Visiting Committee's Report.

Mr Jones reported that an inspection had been made by the President and himself on the 16th September.

In the Plumbing Department they found a number of reconstruction grannies hard at work and all very keen.

In the Electric Wiring room the boards

18-9-46 in the cubicles were badly warped and this prevented the students doing good work.

There appeared to be a lot of junk lying around which needed cleaning up.

The bleachery shop looked very fine although the damp was still in evidence.

The Public Works Department was working on it and hoped to clear up the cause. The surroundings were muddy but this would be rectified when the new building opposite was finished.

They then paid a visit to the Art School and inspected the clay bust of the Prime Minister (Mr. J. B. Whiffey).

It was an excellent likeness and had been executed by K. Palmer, a reconstruction trainee, under the supervision of Mr. W. Bunning.

The report was received and adopted on the motion of Mr Nicholson seconded by Mr Sutton.
