Radio Mechanics.

Mr Richards in elaborating on his report said that this class was commenced early in 1946 with about 12 students. The first year's work was mainly elementary and very little equipment was required.

The second, third and fourth years will require a lot of equipment.

Mr Kerr the instructor was prepared to carry on but he must have equipment estimated to cost approximately £400 to do so.

The position had been placed before the Education Department but so far no reply had been received.

Approach had also been made to several radio manufacturers and offers of equipment had been received.

It was resolved that the Acting Principals' actions in this matter be endorsed.
