

18-6-47 Business Dress, Engineers and Mechanics
It was decided to defer discussion on this matter to the next meeting of the Council.

Council Vacancies
The Chairman reported that the Finance Committee recommended the appointment of Mr. J. F. Kibbin M.B.C. Mr. A. E. Stone and Mr. G. B. Lawry to the vacancies on the School Council.

It was resolved that a recommendation to that effect be forwarded to the Education Department.

(Mrs. Lederman & Nicholson)
Corrosion of Iron Roof on Assay Dept.
It was resolved that the Education Department be requested to draw the attention of the Public Works Department to the state of this roof.

(Mrs. Nicholson & Sutton)

Reports The following reports were read, received and adopted:—

Acting Principal's Report Received: Mrs. Hutchinson & Sutton
Adopted: Mrs. Lederman & John

M. P. Johnston's Report Received: Mrs. Callow & Bealand
Adopted: Mrs. John & Lederman

Visiting Committee's Report

Mrs. Nicholson and John reported that they had made an inspection of the Junior Technical school and the gardens and grounds, the Dressmaking Department and the old Court House.

In the old Court House they found that the Electrical Department was in the throes of shifting in and consequently

18-6-47 There was a general air of disorder in the Dressmaking building a number of students were filling in time while waiting for the buses to take them to their homes. It was a Wednesday afternoon and no class was in session. They noticed that the windows on the western side were obscured by creepers. The lighting would be greatly improved if they were removed.

The Junior School gardens and grounds were in excellent order and the new class room at the rear of the Junior School should make an excellent Pottery Department.

In the Junior School they were informed that shelving was needed in the new modelling room. In the old modelling room alterations and removals had left the plaster in a broken condition. The lighting in the modelling rooms was unsatisfactory and the natural lighting in the rooms facing the Chemistry building was also poor. They found that the temperature of class rooms was quite comfortable and the conduct of students was most orderly.

The report was received and adopted! (Mrs. Bealand & Callow)

Business Visit of students to Newcastle
The Acting Principal reported on the visit of a number of students to the associated industries at Newcastle at the end of May.
