### Visiting Committee's Report

Mr. Nicholson reported that he and Mr. Farr had made an inspection of the administrative block, plumbing department and grounds on the 16th March. Although the building was being repaired there was a general air of cleanliness and order which was very pleasing. The central library was a feature worthy of note and was a very fine acquisition. The Plumbing Department was at present being extended to provide needed additional accommodation. The members of the staff whom they met were very helpful and co-operative and appeared to be very happy in their work and surroundings. Mr. Farr said the visit of inspection was a vivid contrast to others he could recall in past years.

The whole atmosphere had changed and this was due to the enthusiasm of Mr. Richards. He desired to express his personal pleasure with the altered conditions.

The report was received and adopted. (Mrs. Lawry & Small)
