

11-5-49

The transfer of students' lockers to the Students' Room and that some prints or paintings be provided for the walls. In connection with the last item it was suggested that this matter be held over pending the appointment of a new head of the Art Dept who might be able to arrange for art students to carry out wall decorations in the form of murals.

Foremanship

On the suggestion of the President it was agreed to defer this matter for another month to enable additional information regarding likely first year students and a local instructor to be obtained.

Reports

The Principal's Report was read, received and adopted. Received: Mrs John Lynch
Adopted: Mrs Savage & John.

Visiting Committee's Report

Mr John reported that an inspection of the Junior Technical School, garden and grounds, and the Dressmaking Department had been made by Mr Lynch and himself early in the week.

In the Dressmaking building they found that the rooms had recently been painted and were bright and attractive. Everything was in good order and Mrs Williams had no requests or complaints to offer.

At the Junior School they met Mr R. Luther the recently appointed Head Master, who informed them that he was concerned with the inadequate provision of suitable lockers for students. They noticed coats were hanging in the bicycle shelter.

11-5-49

They noticed that the balcony and stairways were in need of painting and suggested that it might be possible to have this work done by C.P.S. Francis. Mr Luther also suggested that the extension of the fence bordering the entrance drive was desirable to prevent students playing on the drive.

They found that class rooms were in good order and had recently been painted. The students also looked very neat and tidy and Mr Luther informed them that he was keen to see students uniformly dressed.

The grounds were tidy and in good order for this time of year.

Mr Lynch adding to the report said that larger lockers were desirable.

He noticed that a basement room had been altered to provide a store for sports materials.

The report was received and adopted on the motion of Mr Jones seconded by Mr Savage.

Business

out of reports

Mr G. W. Cornell
It was resolved that a letter be forwarded to Mr G. W. Cornell expressing the Council's pleasure at his recovery from his recent illness. (Mrs Teddeman & Ballou)
