Visiting Committee's Report.
 Mr Nicholson reported that on the 10th July an inspection of the Engineering Department and Trade Workshops had been carried out by Mr Savage and himself. The Inspectors were on duty and conducted round their departments. Everything was in excellent order and they received no complaints or requests. In the Carpentry Department the installation of the eschousing equipment was temporarily held up. In the Blacksmithing Department they noticed a small hole in the roof which appeared to have been caused by a knock in installing an item of equipment. The report was received and adopted.
