and informative report submitted.
Visiting Committee's Report.

C. S. Callow reported that he and C. S. Lynch
had inspected the Art School, Assay,
Metallurgy, Chemistry and Locking
Departments and the Students' Room.
Most items of interest had been covered
by the Principal in his report.

In the Art School the luncheon recently
laid in the corridors was a marked
improvement and looked very nice
and span.

C. S. Lynch in adding to the report said
that in one room in the Art School
he noticed that the lockers were in
need of repair but he understood
that steps were being taken to have
them attended to.

In the other departments everything was
satisfactory and in their opinion the
marked improvement shown over the
last few years was due to the efforts
of the Principal.

The report was received and adopted.
