

20-6-51 Works which were on order were urgently needed and Mr Ribston was taking up this matter with the Stores Branch. The surface of the tennis court was badly cracked and the adjacent pavilion, which was to be painted under Public Works contract, was in a bad state of repair.

The Headmaster had informed them that a start had been made on the school library. £120 worth of books had been purchased recently and a claim for £60 departmental subsidy lodged with the Education Department.

They found that the coke chute was not altogether effective as coke spilled over the sides. If these were built up more, this trouble would be overcome.

The report was received and adopted.

(Mrs Bealand & Lyall)
Auditors' Report

The Auditors' Report for the period 1st January to 30th April was read and received.

(Mrs Bealand & Jones)

(Mrs Fare & Ballow)

Lenis Lewis and Peter White
Mr Lyall said that the Public Works Department had a gang of workmen who roamed round effecting repairs to asphalt paths, tennis courts etc and suggested that, if might be possible to get them to repair the surface of the Junior Technical School tennis court.

The Principal agreed to contact the Public Works Department and also to see what could be done to raise the side walls of the coke chute.

As regards the pavilion, the Headmaster and staff were considering repairing and extending the building
