Reports The Principal's Report was read,
received and adopted.

Received: Mrs. Callow & John
Adopted: Mrs. Lynch & Webb.

Ex Libris
Visiting Committee's Report.

Ex Lynch reported that an inspection
of most school departments had been
carried out by Mr Webb and himself.
The library was in first class order
and looked excellent. In the Plumbing
Department a junior class was
receiving instruction. The students
impressed with their well dressed
and tidy appearance. The display
boards were an excellent idea.

In the Machine Shop the display
cases of student's work were
most impressive. The old wood classing
room was now used for modelling
and a hobby class under Mr. Thurston.
They found the Pottery Room and
Wood classing building well illuminated
with fluorescent lights. The Motor
Mechanics Department was
progressing well but more accomm-
odation was required.

Ex Webb said that it was his first
visit of inspection and he was
very impressed with all he saw.
He found the Carpenter shop to be well
equipped and clean.

18-3-53

He would suggest that a sawner
machine be obtained if funds would
permit as every apprentice should
have experienced in setting up and
operating this particular machine.
The report was received and
adopted. (Mrs. Sutton & Callow)
