Visiting Committee's Report

Mr. White reported that an inspection of the Art School, Assay and Chemistry Laboratories and the Students' Room had been made by Mr. A. W. Nicholson and himself on the 20th inst.

They found the Art School to be clean and tidy but noticed considerable peeling from the walls adjacent to the flue of the heating stove.

In the Students' Room they found that the floor covering was showing signs of wear. In one place the malthoid was completely worn away and was likely to prove dangerous. In the Assay Department they met Mr. Dewar and Mr. Sheahan and inspected the fuming cage that Mr. Sheahan was setting up for

21-9-55 demonstration purposes.

In the Chemistry Department they met Mr. Barrell who expressed disappointment with the ^{small} number of students taking the applied chemistry course. Mr. Barrell pointed out that a light with a two-way switch ~~is~~ between the Art School and the Assay/Chemistry block would be a big convenience for those who have to use this passage-way at night. The report was received and adopted. (Mrs Dinaker & Mr. W.)
