services of a competent Instructor, who would need to be a member of the F.E.D. & F.A., and ^{that} students would also have to rely on that body for arranging their practical experience, it was resolved that action to establish a list of men interested in this course, be deferred.

(Crs Stone & Aml)

W. H. Gorbould Bequest

The President reported that a meeting of the sub-committee consisting of C. G. K. Sutton, the Principal, himself and the Registrar had been held to discuss the terms of this bequest and to make a recommendation to the Council.

C. Sutton was of the opinion that the term 'student' meant one who was a student of the school at the time the award was to be made and would not include one who had completed his course and received his Diploma.

However, C. Sutton ^{suggested} that Council's opinion ^{should be} obtained before further action is taken and had prepared a brief in case such should be needed.

It was resolved that the action taken be confirmed and that Council's ^{be sought} opinion, regarding the interpretation of the relevant clauses of the Will ^{be sought}. (Crs Nicholson & Aml)

Reports

The Principal's Report was read, received and adopted.

Received: Crs Linaker & Wyles.
adopted: Crs Webb & Williams

Visiting Committee's Report

Crs Smith and Williams reported that they had inspected the Heat Engines, Smithing and Welding, Carpentry and Joining and Fitting Departments during the month. With the exception of Smithing, they found that all departments visited were clean and tidy and a credit to the staff concerned.

In the Smithing section they noticed a collection of boxes and timber on an elevated type of mezzanine floor which gave the shop an untidy appearance and created a fire risk.

They ^{also} felt that the exhausting of fumes and dust was not satisfactory.

In the carpentry department they enquired regarding the maintenance of tools for use by students and were informed by the instructor that they are kept in good condition.

On their way back to the office they noticed a circular ^{table} under a weeping elm in front of the Plumbing Department which was in a bad state of repair.

The report was received and adopted. (Crs John & Beasland)

Plumbing Wash Room Fittings

It was decided to convey to Mr K. Scull the Council's thanks for the attention given by him to the faulty fittings reported on at the October meeting.

Reclassifications

On the recommendation of the Principal the following re-classifications from C. 6 to B1 were approved for
