

18-4-56 Council and the Chair of Bangalore
be requested to do everything possible
to effect temporary repairs to this
road before the onset of wet weather.
(Mrs Pearson & Dohr)

Gymnasium and Recreation Hall

The Principal reported that a telephone
communication had been received by
Mr Registrar from the Chief Clerk
in the Technical Schools Branch of
the Education Department to the effect
that the Chief Architect objected
to this building being erected with
a wall on the Grant Street alignment.
He had also raised the matter of
eaves on the roof.

The Principal said that he expected
to meet the District Architect
(Mr Bradbury) in the course of a few
days and hoped to clarify these
matters.

Reports The Principal's Report was read, received
and adopted.

Received: Mrs Nicholson & Linaker

Adopted: Mrs Smith & Lynch

Visiting Committee's Report

Mr Linaker said that he had carried
out the programme of inspection in the
absence of Mr K. B. Webb who was in
Aberdeen.

He found that the grounds were in good
order and the lavatories clean.

The corrugated galvanised iron fence at
the rear of the Students' Room needed

18-4-56 some attention as several of the sheets of
iron were in a loose condition. He also
noticed that a limb on a pepper tree beside
the building used for preparation of clay
was rubbing on a window and damaging
the woodwork. He went into Albert
Street and found that the footpath which
runs along the carpentry and turning
and fitting buildings was a disgrace.
The galvanised iron fence at the southern
end of the latter building was also in
need of attention.

In the Plumbing Department Mr Scull
was not on duty but Mr Mc Bulloch
informed him that Mr Scull was
concerned about inadequate office
accommodation. He (Mr Linaker)
would suggest that the notice board
be moved to another position where
it would not obstruct observation
of the shop. The trade theory rooms
underneath appeared to be quite
satisfactory.

In the Administrative Block he was
unable to inspect some of the rooms
as no classes were in operation
and the doors were locked.

The report was received and adopted.
(Mrs Pearson & Bealand)

Business arising out of reports

Congratulations to Mothers' Club.
It was resolved that letters of
congratulation be forwarded to the
two junior Technical School Mothers'
Clubs and the Parents and Friends'
Association in connection with two
highly successful fairs recently held.
