

The Buxton trout and Salmon Farm was Australia's first commercial Trout farm, with trout having been reared there for over 50 years.

The gravity fed water supply originates from the snowfields of Lake Mountain, before the water cascades down Steavenson Falls and river, to the farm, where it provides the perfect conditions to grow this clean natural food.

Buxton Trout and Salmon Farm is known for its nature based experience, guaranteed catch and friendliness, as well as consistent high quality trout products and gourmet produce. We gut and gill the catch at no extra charge and our BBQ facilities are free for you to cook your catch.

The fishout lakes and streams, cover several hectares, and are surrounded by a stunning natural bush setting. There is a variety of different ponds for you to fish in. They are all conveniently named, for the fish they contain. They include Large Trout (500g-3kg), Medium Trout (300g-500g), Salmon Pond (1kg-4kg), and a Challenge lake, for people who want a higher degree of difficulty.

The Buxton Trout and Salmon Farm brand is also famous for the traditional wood smoked salmon and trout. Our smoked trout is cooked over a mountain ash fire, in a traditional method, and are considered by many chefs to be the best in Australia. Hand-Milked caviar is also sold at the farm, a favourite of Japanese restaurants and sushi bars.
