Continued heavy snowfalls have created problems for the Forests Commission in the Lake Mountain area.

Forestry crews have been in the area since last Saturday morning trying to maintain roads in a trafficable condition.

The Cumberland road from the Lake Mountain turn off on is officially closed.

As well as the snow, falling tree are creating a hazard.

LONELY DAY

Last Monday, Ted Carsons spent the day on a logging road in the Gumtop area. His Landrover became bogged where a logging contractor had undercut the road.

Because of his position in a gully Ted was unable to contact base by radio so spent the day waiting for help to arrive.

When Ted didn't arrive home by 6.30 that evening, his wife contacted the forestry office. The search vehicle made radio contact with Ted when it arrived in the Stockman's area.

Ted was picked up at 9.30p.m. and when a crew returned the next morning to collect Ted's vehicle, there was a aover of four inches of snow.

### MARYSVILLE SENIOR CITIZENS

To the Editors of "Triangle News"... You are doing it again in stretching that generation gap still further.

Some time ago you tried to confise us with your Metric rainfall measurements and we replied with aur comments. Now you intend to inflict on us the Metric Time.

Having been brought up with the 3Rs, we would prefer to talk in such a way that people would understand what you were saying. Apparently in the future when you meet a friend you will say, "Just a milliday, Mr Halliday, I won't keep you for a centiday, but I have been looking for you for Decidays to tell you that I will be going away to Port Macquarie for a couple of Decadays."

Mick will say, "No savvy." or something appropriate and then decide that you are over the .05 limit.

In your last issue you said, "More next week"....Please spare us! Yours faithfully,

Septua and Octo Genarians.

### WELCOME HOME

Nice to welcome Tino and Elsa back home from their trip overseas(particularly to an 'all white' countryside). In a card I received from him while he was away, he said that he had found some good "vino" and as a way of of keeping fit for his milk round, he regularly climbed the leaning tower tower of Pisa-now if I didn't know for sure that he was a fair dinkum "Kangaroo 'B'"-(least he left here as one!) ese would be gratefully accepted. I would have described his condition They could be left at the Centre for as "High Tiddly Itie". Neighbor.

GOLF. Most players preferred to stay by their oil heaters and telly's on Sunday. Only a few braved the wintery conditions to play in the stableford event. Although the day was wet some good scores were handed in. The best being Wykeham Perry with 42 points. Nearest the Pin was won by Capt. Ted Greatorex. Apparently the shot of the day went to Alan Jones on the 16th. Alan lofted his club right over the ri competition will be an 18 hole stroke event. It will also be the second day od the Clarrie Smith Perpetual Cup. The A.V.P.A. Tournament will also be held at Taggerty on Sunday so a good of golf is assured where-ever you choose to play.
