If you play every game it will only cost you \$5.00 for the night. For future games we hope to have two jackpots - one will be called a cloating jackpot. COMMENCEMENT ADDRESS - continued from last week These are the people who have given you a healthier world than they found. And because of this you no longer have to fear epidemics of flu, typhus, diphtheria, small-pox, scarlet-fever,

measles or mumps that they knew in their youth. And the dreaded polio is no longer a medical factor, while tuberculosis is almost unheard of.

Let me remind you that these remarkable people lived through history's greatest depression Many of these people know what it is to be really poor, what it is to be hundry and cold. And because of this, they determined it would not to you, that you would have a better life, you would have food to eat, milk to drink, vitamins to nourish you, a warm house, better schools and greater opportunities to succeed than they had.

Because they gave you the best, you are the tallest, healthiest, brightest and probably the be looking generation to inhabit the land. And because of them, you will work fewer hours, learn more, have more leisure time, travel to more distant places, and have more of a chance to follow your life's ambition. These are also the people who fought man's grisliest war. They are the people who defeated the tyranny of Hitler and these are the people who had the sense to begi high schools, trained and hired tens of thousands of better teachers and at the same time made higher education a very real possibility for millions of youngeters, where once it was only the dream of a wealthy few. And they made a start - although a late one - in healing the scare of the earth and in fighting pollution and the destruction of our natural environment.

Whilst they have done all these things, they have had some failures.

They have not yet found out an alternative for war nor for racial hate.

(third and final episode next week.)
