FIRE FIRE

Believe it or not the fire season is here again. and this year looks like being more dangerous growth should be cut down at the earliest chance risk of a heartbreaking fire.

Why is it people are so ignorant of fire In an emergency when Sister is not available prevention. Perhaps we need a replay of the 1939 fires. Also why is it that the fire brigade is the least acknowledged and least important organisation in Marysville ? ?. And what about the fire truck - a more toy for this area. Would a petition for a new truck be in order ? ? . What do you think - it's in your hands.

COMMENCEMENT ADDRESS - third and final episode. Perhaps you, the members of this graduating class, will perfect the social mechanisms by which all men may follow their ambitions without the threat of force - so that the earth will no longer need police to enforce the laws, nor armies to prevent some men from treapassing against others. But they, these older generations - made more progress by the sweat of their brows than in any previous era, and don't you forget it.

If your generation can make as much progress in as many areas as these two generations have,

wordd's remaining ills.

It is my hope, and I know, the hope of these two generations, that you find the answers to many of these problems that plague mankind. But it reeding and digging. Are there any able - bedied thoughts, nor by rearing down or belittling. volunteers who would help - ? ? ? .
