Needing a grassed area for horse gymkhanas work was stærted to improve the area on the town end of the oval between it and Darmody's pond by a group led by Lloyd Gould. While carrying our the start of the project it became obvious that now would be a good time to extend the work to improve the area around the pond.

A planned feature was to be a water spout in the centre of the pond but too many complications put paid to this idea and a water cascade has replaced the original idea.

Lions Club member, Bill Lucas, drummed up his Club's support to the tune of about \$1000 for piping necessary for the project. This amount however pales when compared to the amount of money spent in the form of man and machine hours by Lloyd Gould and his team.

Congratulations to all concerned in the project as it will add considerably to the heauty of our already magnificent area. MOUNTAIN VIEWS HOME IMPROVEMENT CENTRE
