President Ken Adams

Vol. 36 No. 4

SNOW DOC RUNS !

Marysville's own Dr Lachlan Fraser shares his passion for running:

I started running after medical studies to get fit and reduce stress, and 10 years later I had completed 4 Melbourne Marathons. After a 10 year gap, I had a year of running 3 km down a road and then 3 weeks to notch it up for 2004 Melbourne Marathon. Since, I've added 15 marathons – inc. Great Ocean Road, Canberra, Sydney, Gold Coast, with The Great Wall of China being the most spectacular and hardest (3.5 km of steps, near the start, agonisingly repeated towards the end). Personal best – October 2008, Silicon Valley Marathon, California at a very satisfying 2:58 (hr:min). Lots of applause from runners as I returned, to run 7th of 700 runners, winning my age group and new shoes. Hiking the week before in Yellowstone NP at 3000 m elevation helped the blood count, so 2 weeks higher up and a flatter marathon is planned.

A year ago I started ultramarathons (42 km+), collecting 12 finishes for 2008 and 2 this year. Held annually around Australia (Australian Ultramarathon Runners Assoc.), you keep meeting up with "colleagues" of a similar mind (nuts to lay people). There's an average of 25 runners, with myself making the top 1/3, & up to 1/3 not finishing. 2008 – Bogong To Hotham (64 km; 9:55 time taken)(9:28, 2009); Maroonah Dam Run (50; 5:23); 6 Foot Track, Blue Mtn.s (45; 4:34) (781 runners); Frankston To Portsea (55 km). The last 1/2 of such runs most walk uphill sections,

sustained by food/fluids at checkpoints. These act as training runs for next events, giving endurance for 100 hilly km at Wilson's Prom. in 13.5 hour – others took on distances as "short" as 45 km. With 1 or 2 days off running, a week later I completed 50 km at Waihalia. June saw me finish 100 km Gold Coast in 9.5 hr. and run Traralgon marathon a week later in 3:10. In July I placed 3rd in the Bush Capital Bush Marathon 60 km in Canberra, for my 1st trophy. I ran 1st in the 53.5 km Around The Tan (in Melbourne) in 4:21, & 3rd in Shepparton Marathon the day after the ski marathon at Falls Creek.

In November I dived into the Great North Walk "100 miles" (actually 180 km), Newcastle towards Sydney, preceded by 5 days of sleep deprivation touring the USA (including a fantastic run in the Grand Canyon down to the river and back). Lost 3 times added 2 hours to my finish of 34 hours (with a 20 minute nap); others take on the "short" distance of 100 km. What an experience, matched in December by the Coast To Kosciusko – 240 km, of which we covered 222 km because gale winds and rain-forced a soggy,

battered and grateful finish at Charlotte's Pass in 33 hours. That was the longest I've run continuously – 80 km (8.5 hr.) except for 3 km uphill & refreshments. For C2K everyone has a support crew and car, to meet up every 5 km or so, a big job in itself. A few people

raise money for charity but most run because it's there, thanks to the volunteer organisers.

Snippets from History

Have you ever wondered why our small country village of Marysville has a park called "Gallipoli Park"?

We have always known that the land for the park was donated by Joe White in memory of his brother Alex, who was killed at Gallipoli. Joe had his holiday house here. This was 'Wandsworth' in Kerami Crescent. We know it nowadays as "Kerami Guest House".

Joe was the owner of Joe White Malster Co Ltd which provided malted barley to the Foster's Brewery in Collingwood. We have recently learned more about this brother.

Alexander White served and died at Gallipoli. He was a gallant officer and served his country with distinction. He is remembered with much pride by his grandson, also called Alexander and his grand-daughter Mrs Margaret McPherson.

I can strongly recommend that if you are interested in reading more about this true hero you should get a copy of John Hamilton's book "Good-bye Cobber, God Bless You" (published by McMillan 2004). This is a heart-wrenching account of the Gallipoli Campaign in 1915. Alex White was killed as the Australians attempted to storm a Turkish position call The Nek:

In the story there are numerous references to the involvement of Colonel White who was the commanding officer of the 8th Regiment.

Remember Joe and Alex next time you enjoy Gallipoli Park.

"Lest We Forget"

Snow Doc runs

from Page 1

Seldom an I-pod needed, there is enough to ponder.

Further trophies were won at Moe ath.s track -- Victorian 50 km (3rd in 4:15) & 6 Hour Championships (1st, running the furthest distance of 68.5 km, mostly in rain = 171 laps!). The 50 km is run as part of the 6 hour timed event. Might try 24 hours Coburg track in April -- aaagh! 2009 I've added 50 km of Mansfield to Buller summit with a trophy for 3rd in 4:48. With monthly Rogaines (bush orienteering events 6- 24 hours) I averaged an event fortnightly, so might have

to drop a few marathons. Like to thank the coach, age 87, ½ blind/deaf, makes me tow him uphill, he's 14.5 in heeler years. So try it, spend \$130 on shoes, do 10 minutes of stretches before/after a run, start with a few blocks, then fun runs of 5-10 km, 1/2 marathons and ... the earth's the limit.

Mad Dogs, Englishmen and Marysville Golfers...

Mad dogs, Englishmen and Marysville golfers go out in the midday sun! Yes, despite the extreme heat this week there were a number of golfers who played in the weekly competitions. Some resorted to hiring a cart but most walked the course and completed the 18 holes albeit with copious amounts of drinking water. Some members, including this scribe, were (jokingly) listed as 'others who wimped out' on the results board! The 'wimps' did suggest that all members who had played should be psychologically tested on their return to the clubhouse!

On Wednesday 28 January a stroke round was played and Jason Stirling (8) blitzed the field in all aspects of the game. He was the daily winner with nett 69; he won the putting with 27 putts and his second shot to the 18th hole won the nearest the pin. We are assured that there were others playing that day!

On Thursday for the weekly nine hole competition players had to choose three clubs and a putter for a stableford round on the front nine. The winner was Patti Matthews with 21 points on a countback from Bob Emblin and Matthew Liesfield. James Liesfield won the nearest the pin at the Par 3 fourth hole.

The Saturday competition was a Par round. All those who completed the round in the soaring heat were winners for their tenacity, but Ron Birkett (25) was the golf winner with square on a count back from Joe Tricarico and Dean Connell. The Ladies winner was Liz Amos (14) with -1. The nearest the pin winners were Dave Robinson, Geoff Falcke and Lloyd Flaherty. Congratulations to all the weekly winners.

During February, to avoid playing in the heat of the day, the Wednesday competition will begin at 8.30am. Next Saturday the competition will be monthly medal.

A reminder to all those wishing to enter the Wirreanda Festival Golf Day on Saturday 21 February to do so at the club shop or ring Jason or Dave on 59633241.

Great Aussie tradition violated and no action taken!

There are a group of Australians who this summer will violate a great Aussie tradition and refuse to share a beer with their mates. It's not because they want to but simply because they can't. For Coeliacs, (people who are gluten intolerant), beer is a no-go zone. Imagine how they suffer watching their mates enjoy a nice cold beer on a hot summer afternoon. Imagine longing for a beer, but knowing that every mouthful will cause you pain later on. Imagine knowing that the only beer you can drink will cost you over \$100 a carton! These problems are faced by every gluten-intolerant person. That is, until now.

David Kitchen of Brewers Choice Home Brew (Queensland), said his company had started on the long road to gluten-free beer two years ago after attending a party with a person who could not enjoy a simple beer with friends. As a beer lover, David strongly sympathized and set out to find a solution. Research suggested as many as one person in a hundred was gluten-intolerant. In the end, the search had to go international and Brewers Choice was able to find a suitable product overseas. After extensive testing, two new beers are now available – a Honey Cascade Beer, with a subtle honey flavour, and an OZ Pale Ale, with crisp, citrusy undertones – both great beers for our hot summer weather. Making 23 litres of beer, at a cost of less than \$20 a carton, the Gluten-free beer kits make beer drinking a possibility for Coeliacs and at a price cheaper than your normal VB.

The Gluten-free beers were trialed at a recent Coeliac Expo and were extremely well received. "A visitor to the Expo even proposed marriage to one of our staff if this would secure him a long term supply of the beer" said David. Since then, Brewers Choice has been working around the clock to get these beers onto the market, leaving just enough time to get a beer brewed and ready for summer.

The beer kits will be available from Brewer's Choice Homebrewing Supplies in Woori Yallock, or via our homebrewing website – www.brewerschoice.net.au

For further information, contact Colin Penrose on 5964 6222.

Murrindindi Shire Council

Children's Services Team – Home Based Child Care - part time position

Are you looking for a job that is interesting, varied and rewarding?

Do you have initiative and 'get up and go'?

Could you manage a range of different tasks both in and out of the office?

You will be based at Alexandra but travel around the shire liaising with families needing child care, and supporting the people who provide this care in private homes. As well you will promote our services and assist with administration.

The position is initially for two days per week but this could increase if we work together to expand our services. You need a Victorian driver's licence and must pass Police & Working With Children checks.

You can get more information from Louise Flowers on 5772 0356, and find the job description at www.murrindindi.vic.gov.au or by ringing Lisa Ryan on 5772 0365

Applications close on Monday 16 February 2009 at 9am 2009.

Mayor's Chair

At last weeks council meeting we discussed a range of project application for each of the Wards under the Federal Governments Regional and Local Community Infrastructure Program announced in November last year. Council has decided to divide the money evenly across the Wards with the applications covering swings, shade sails, upgrade to buildings and the possibility of a streetscape. The applications have been sent to Canberra and now we must wait and see what projects will be funded.

Representatives of the Sugarloaf Alliance, (NS Pipeline) provided an update to council on the pipeline work. Electricity will be provided underground to the Pumping Station at the Goulburn river and the trees that have to be removed will be chipped, pulped or mulched. The Alliance is still waiting for permits on a number of waterways with most of the environmental plans and permits being finished.

Melbourne Water and the Sugarloaf Pipeline Alliance (SPA) have announced a Regional Benefits Package which will make funding available to communities affected by the construction of the North South Pipeline.

The shires of Murrindindi, Yarra Ranges and incorporated community groups located near the pipeline are able to apply for grants. A series of free workshops are being run for local community groups and individuals to learn how to pre-

pare successful grant applications. Further information on these sessions can be found by visiting the Calendar of Events (February) section of Council's website at www.murrindindi.vic.gov.au or by visiting www.sugarloafpipeline.com.au.

Councillors and staff spent two days last week hard at work on a draft of a new Council plan. This provided an excellent opportunity for the new and existing Councillors to get to know each other and the staff. Once the draft is completed it will be time for residents to provide their idea and comments on the plan.

Thought for the Week 'Whenever you see a successful business, someone once made a courageous decision'.

Councillor Comment **Cr Sally Abbott Smith, Cheviot Ward**

As a new Councillor, I thought I would share with you my first impressions and information gleaned about issues brought to my attention by the community so far. In Victoria there are now 79 municipal councils representing about 4.6 million people. On average, local Government collects only three cents of every dollar raised through taxes in Australia. Our local property rates, charges, fees and fines make up 59% of our Council's Financial Budget compared to the local government average of 75%.

All Councillors are unanimous in rating trust and transparency as the most important requirement of our new respectful, inclusive, accessible and cohesive team. The primary objective of our council is to endeavor to achieve the best outcomes for the whole of Murrindindi, having regard for the long-term and cumulative effects of decisions. The council is mindful of the diverse needs of all parties, and aims to improve the overall quality of life of the people of Murrindindi. Our Council is responsible and accountable to you, our local community.

Two recent issues have been brought to my attention:

What is enjoyable to one person may be noise to another and too much noise can reduce people's quality of life.

Section 48A of the Environment Protection Act 1970 (EP Act) makes it an offence to cause unreasonable noise from any residential premises. Be aware of the needs of others.

Prohibited times = before 7am weekdays & 9am weekends, and after 8pm. Further information is available from Council.

Council's Environment Local Law 1996 for recreational vehicles states that a person must not use a recreational vehicle on a day of Total Fire Ban and a person must not use a recreational vehicle on private land in such a way as to cause nuisance to neighbouring landowners. There is a Penalty of \$500.

Council first introduced Road Dust Suppressant in 2002/03 on a trial basis. The current budget for 2008/09 is approximately \$52,000, which achieves a total length of 18.8km over 43 roads. The current criteria for program selection is as follows:

- Council must receive a request for dust suppression
- The road must have estimated traffic volumes greater than 50 vehicles per day
- A minimum of 3 dwellings per 100 metres of road length must benefit or;
- A community facility must benefit

DustMag (Australian made) is a hygroscopic solution, which means it attracts and retains moisture from the air. When sprayed at the start of summer it binds itself and water molecules to the surface making them heavier and less prone to lifting from the road by wind or traffic action. As the magnesium chloride in DustMag penetrates the road and reduces any negative charges on the particles. This in turn reduces the particles tendency to repel each other and reduces the thickness of water coating the particles.

I am pleased to be part of the new council portfolio of Climate Change and the Natural Environment.

We welcome back Sue McNair as Council's Environment Project Officer to complete the roadside vegetation mapping and Dr Rita Seethaler's appointment as Environment Strategy Project Officer to develop an action plan to lower Council's greenhouse gas emissions.

Our council is to be congratulated on its sustainability by instigating the use of a memory stick and laptop for each councillor's information processing, instead of the otherwise wasteful reams of paper. A solar panel system connected to the GRID will be installed on the Yea Shire building with an educational display unit in the Library. Allan Cassell is completing the Council's audit of greenhouse gas emissions which will be presented at the February meeting of Council.

Your Health and Well-Being

From Community Health

Lunch Box Tips – Part 1

Healthy lunches and snacks are important for active children. Eating healthy food helps children concentrate and learn. Healthy eating changes are not always easy to make - set a good example with your own eating habits. Encourage children to be involved in preparing their own lunch and choosing the foods to include. Choose a variety of food from all food groups:

Fruit - choose fresh or tinned fruit. Dried fruit is sticky and high in sugar, so have it occasionally. Best left out of the lunch box are dried fruit bars and 'straps', which are very high in sugar, low in fibre and stick to children's teeth.

Vegetables - try vegetable sticks with dip, or a small container with mixed vegetables such as cherry tomatoes, carrot sticks, peas and cucumber. Chips are best left for special occasions.

Milk, yoghurt and custard - include a small drink of milk (freeze overnight) wrapped in a cloth. Fruit yoghurts should be kept cool. Best left out of the lunch box are 'dairy desserts' and flavoured milks, which are high in sugar.

Dips, cheese and biscuits - pre-packaged or your homemade versions of cheese and crackers. Avoid sweet dips such as chocolate spreads. 'Oven baked' savoury biscuits are just as high in salt and fat as chips and are best avoided.

Different breads add interest - try bread rolls, flat bread, bagels, fruit loaf, foccacias, scones, pikelets, muffins, crumpets, crispbreads, rice cakes or corn thins.

Fillings - vegemite, peanut butter, cheese (try different types), tuna, egg, cold meats, baked beans, grated carrot and lettuce, roast meat with pickles, avocado. Avoid chocolate spreads, jams and honey, and fatty meats like salami and strasburg.

Muffins and cakes - try making your own muffins and cakes with fruit and vegetables - sultana, carrot, zucchini, banana, pumpkin. Save donuts and creamy cakes for special occasions.

Muesli bars - avoid muesli bars and chocolate bars in lunch boxes. These are expensive and usually stuck together with fats and sugars.

New Officer to Develop Environment Strategy

Taggerty resident Rita Seethaler has been appointed to the position of Project Officer with the Murrindindi Shire Council to co-ordinate the development of the Council's environment strategy.

According to Council's General Manager Sustainability, Michael Chesworth, the purpose of the strategy is to increase the Council's focus on environmental management, making sure Council's services and programs are carried out in an environmentally responsible way.

The project also includes the development of plans to reduce Council's greenhouse gas emissions and to respond to the impacts of climate change.

The position of Project Officer was made possible following Council's successful application to the State Government for funding during 2008. The position is for a period of ten months.

Rita comes to the position with a unique academic and professional background that includes environmental sustainability, social and behavioral science and economics. Her professional work has focused on finding cost-effective ways to improve environmental outcomes, particularly in the area of transport.

Rita was recently appointed to the newly formed Dryland Implementation Committee with the Goulburn Broken Catchment Management Authority and she is also very active in the local Murrindindi community, having played key roles in the establishment of the Murrindindi Climate Network and the inaugural Murrindindi Sustainability Expo in 2008.

Rita joins Sue McNair in the environment team at the Council. Sue is also employed as a consequence of external grant funding to complete the Council's audit of weeds and biodiversity values on Council managed land and roadsides.

Murrindindi Shire Council

TAC Community Road Safety Grants Program

Round four of the TAC Community Road Safety Grants Program is open for applications.

The program aims to:

- Encourage community involvement in local road safety programs that are consistent with the Arrive Alive Road Safety Strategy (www.arrivealive.vic.gov.au);
- Provide opportunities for local community groups to develop and implement effective road safety projects targeting specific local road safety issues.

The guidelines and application forms can be accessed from the TAC website at www.tac.vic.gov.au or hard copies can be requested by contacting Liz Knight at the TAC on (03) 9664 6954 or (03) 5225 6954.

Round four closes on 13 February 2009.

NOTICE OF AN APPLICATION FOR PLANNING PERMIT

The land affected by the application is located at:	684 Buxton-Marysville Rd Buxton 684 Buxton-Marysville Rd Buxton (LOT: 2 TP: 859697, LOT: 1 TP 534705)
The application is for a permit to:	Boundary Realignment subdivision (two lots)
The applicant for the permit is:	RG Pitcher & MW Pringle
The application reference number is:	2009/4
You may look at the application and any documents that support the application at the office of the Responsible Authority at:	Murrindindi Shire Council Perkins Street ALEXANDRA 3714 and or Marysville Visitor Information Centre Murchison Street MARYSVILLE VIC 3779

Viewing of the application can be done during office hours and is free of charge.

Any person who may be affected by the granting of the permit may object or make other submissions to the Responsible Authority.

An objection must be sent to the Responsible Authority in writing, include reasons for the objection, and state how the objector would be affected.

The Responsible Authority will not decide on the application before:	19/02/2009
---	------------

If you object the Responsible Authority will advise you of its decision.

Note: Objections must be received at the Alexandra Office and can be faxed from the Yea and Kinglake Offices. It is important that any objections lodged at the Kinglake and Yea offices are brought to staff attention at the Alexandra Office to ensure they are considered as part of the planning permit process.
