

7/6/16.

Dear Frank.

We are still ploughing through the Mediterranean, & expect to be ashore tomorrow afternoon (Marseilles I suppose). There is nothing further to tell you.

We received a message this morning saying that Toikhner & staff had been drowned in the North Sea; their boat having struck a mine or torpedo.

We are all hoping that the message is false. This is a photo of the "Hooper" we are on at present. We

are not allowed to mention names. She is not a bad boat & would be alright in peace time.

The weather is still good & we have had a fine trip.

I must finish now as there is nothing to write about.

Yr loving fr
Harold.

P.S. you can keep the other card for me.
