

AUTHOR'S NOTE

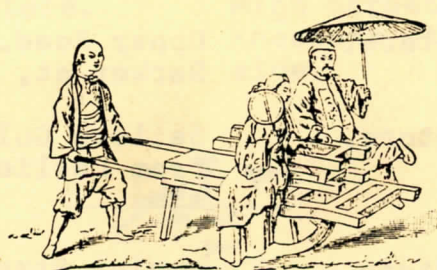

In compiling this list of Chinese Traders in Eaglehawk I consulted a Trades Directory published around the turn of the century. This gave me names and streets but not always an address.

Where an address was not given, it was necessary to visit an area and pinpoint the exact location of a store or market garden which was, at times, a difficult task as they have long since disappeared and their sites now unrecognizable.

Though it be but a brief glimpse of the Chinese presence in Eaglehawk, my efforts in placing these names before you will bear fruit if sufficient interest is aroused and helps to promote a long overdue written history of the Chinese people in the Eaglehawk area.
