Bendigo
2/7/70

Mr John Newton
Teacher in charge
Audio Visual Collection Centre
Box 190
Bendigo Vic
Au

In reference to your suggestion that the former Police Barracks at Bendigo be converted for your use I wish to advise that the Society would support your application within the following framework.

- 1/ That the Society will arrange in conjunction with the National Trust and under the supervision of the Public Works Dept limited stonework restoration to render building safe
- 2/ That the Society will arrange security screening to windows and doors to value of \$200 to consist of weldmesh and again to Public Works requirements
- 3/ That when your tenure ceases the Society is advised so that it may make a further application for occupancy
- 4/ That the building be locked securely when not in use
- 5/ That a small portion not needed for your use be made available to Society.
- 6/ That all internal conversion etc be carried out at your expense

I thank you for your interest and would emphasise that the Society has only an advisory role in this matter but that its principle motivation is preservation for a useful purpose.

W. Biggs Treasurer.
