Dear secretary

Please find enclosed the State Coach's proposed programme for country Associations up to August 1979. If any periods are unavailing please notify me in plenty of time so as to enable me to contact the relevant parties concerned in good time also eg. Tomas S., W. Gollong, UAVA secretary VCVC secretary etc.

If there are no problem with the dates, it is your responsibility to organise "contact" arrangements with Tomas Santamaria direct, and it would be courteous and appropriate to have a list of Tomas' activities ready for him on his arrival.

Tomas has indicated that, to make his visits to the schools more worthwhile, that you organise one or preferably several meetings of the physical education teachers from the different schools with Tomas to first of all discuss the technical aspects of the sport, and secondly to get the ball rolling in setting up local (or district) interschool volleyball matches - and with the primary schools, mini-volleyball matches. This you will agree must be infinitely more profitable than a one-off visit by Tomas, but can only be achieved if a couple of people in each centre were given the task to knuckle down and get to work in contacting the right people by phone as well as by personal contact (if necessary). Letters tend to be ignored for some reason. Give yourself plenty of time and it would be advisable to get into motion not long after school commences in February to give all parties involved a chance to plan ahead.

Don't forget your coaches and referees! in organising clinics - an area which could not be better served ^{than} by a person of Tomas' experience.

Please cooperate in this venture as your players are paying a substantial amount of their registration to enable Tomas to carry out these duties and when they see and hear what is happening in their district all your efforts will have been worthwhile! (?)

Thanking you in anticipation,

Yours in volleyball

R. A. Menter
