Dear Murray,

The Stawell Volleyball Association is considering becoming a member organization of the V.C.V.C. Our members will decide as to whether affiliation is desired on the basis of

- 1) cost to our association?
- 2) advantages to our association?
- 3) whether we can play matches against other associations without being a member of the V.C.V.C.?

It would be much appreciated if you could supply answers to the above 3 points so our members may make an informed decision on what is best for the S.V.A. at this time.
