At the 1980 Open Country Championships if 8 or more Entries are received, then at least 2 Divisions of Championships will take place. Automatic promotion and relegation of the teams will be decided on by the Executive Committee, taking into account the immediately previous Country Championships.

If insufficient entries are received to form a viable 2nd Division, some Associations will be invited to send a 2nd team to make up the Numbers.

This course has been adopted to provide more incentive for the weaker Country Associations.
