SCHEDULE

Attached is the first outline of the Olympic Village sports schedule. It is important to note that this schedule is a starting point and not the ultimate program.

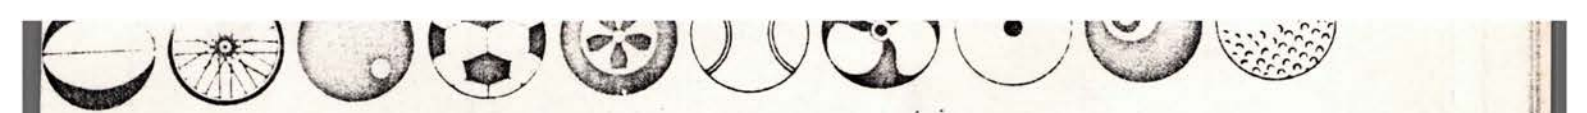

We now invite you to consider the schedule, note your own sporting association's involvement or non/involvement and comment accordingly.

A number of sporting bodies are not in this outline for various reasons, some because they will be involved on their own sites and others because the nature of their activities has not yet been formulated. Please do not feel that your association has been in any way overlooked or treated disproportionately to any other body.

In the weeks ahead we hope to discuss World Sports Expo involvement with you and invite your objections and comments to this schedule.

In the meantime please fill in the attached coupon and forward it to:
