The Secretary,
The Egg & Egg Pulp Marketing Board,
P.O. Box 4542,
MELBOURNE. 3001

Dear Sir,

Although our Association delegates have placed before the V.E.B. objections to the washing of all eggs, especially clean eggs on approved inline washers, and we realise that a decision will be made on this matter in the very near future. Prior to a decision being reached we would like V.E.B. members to inspect farms in our district who produce clean eggs without washing.

Delegates would like to discuss this matter with members after their inspection.

Yours sincerely,

K. Fitzgibbon
SECRETARY
