Dear Sir,

At our recent Conference of the Central Council of the Commercial Egg Producers Association of Victoria I was instructed to write to you suggesting that a Stock Feed Wheat Price could be introduced for the whole of Australia.

We believe a Stock Feed Wheat price on fair average quality grain would benefit both the Producers and the Consumers.

We also believe this would reduce the large amount of black market wheat being sold as it is at present.

Hoping that you will take a real look into this and orderly marketing in general within the wheat industry.

Yours sincerely,

K. Fitzgibbon,
SECRETARY
