Hon. I.W. Smith, M.P.,
Minister of Agriculture,
P.O. Box 4041,
MELBOURNE. 3001

Dear Mr. Smith,

At our recent conference a discussion arose on the need of Random Sample Laying Tests at Burnley, it was decided that this was a valuable source of information to Producers and a great help now that there are fewer breeds of hens available on the commercial market. Because of this we feel that the Random Sample Laying Test should continue.

Yours faithfully,

K. Fitzgibbon,
SECRETARY
