Dear Sir,

At our recent conference members were unanimous in their objection of V.E.B. members being appointed by the Minister of Agriculture. We strongly protest at this very undemocratic method of electing a marketing board, we believe that Producer Members should be elected by the Producers they will represent. 2 zones in the State of Victoria would probably be advisable.

Hoping you will keep our feelings in mind in any future party discussions on this matter.

Yours sincerely,

K. Fitzgibbon,
