Dear Richard,

At an Executive meeting of our Association on 27th July, 1982 I was instructed to write to you requesting that Crystal Industries submit a written proposal re the future of the egg grading floor in Bendigo; along the lines that were suggested at a recent meeting with you on 20th July, 1982.

Our Association would like to receive your ideas so we can consider them as soon as possible, as we realise that we all have to work together in this matter.

Yours sincerely,

K. Fitzgibbon,
