15th April, 1983

Mr. R. A. Guy,
Managing Director,
Cystal Egg Company,
P.O. Box 4,
BENDIGO
Vic. 3550.

Dear Richard:

In reply to your letter of 7th. April, regarding proposed sliding scale increase of grading charges, our Association is of the opinion that these conditions are unacceptable, the proposal put forward is very discriminatory against small producers.

We have heard that some casual staff have been retrenched since the new machine began operations, so we hope that you can withhold any increases in charges until the new Egg Board has been appointed.

We realise that your costs have escalated in the last 12 months, but so have the producers, and we are looking for your co-operation in this matter.

Yours sincerely,

K. Fitzgibbon
SECRETARY.
