Mr. J. Hallam,
Minister of Agriculture and Fisheries,
Parliament House,
SYDNEY. 2000

Dear Mr. Hallam,

The Commercial Egg Producers' Association of Victoria, which represents egg producers right across the Northern part of Victoria; fully supports the N.S.W. Government and the Egg Corporation in their efforts to control illegal and unlawful Producers who are threatening the orderly and regulated marketing system not only in N.S.W. but the whole of Australia.

We are very alarmed that rebel traders have been allowed to pursue their operations for so long at the expense of farmers conducting their business within the guidelines set out by the Egg Corporation.

We would appreciate being informed of any further action contemplated by your Government in this matter.

Yours faithfully,

K. Fitzgibbon,
SECRETARY.
