The Secretary
Egg Farmers of Victoria
551 Chandler Road
KEYSBOROUGH. 3173

Dear Sir

At the last meeting of the V.F.G.A. Egg Producers Group, members of the Egg Producers Association and Commercial Egg Producers Association discussed the funding of ACEP and the current desire and support needed nationally to finance the council and its membership to the National Farmers Federation.

It was agreed that we request the Board to examine the possibility of collecting funds by way of an industry levy for use agropolitically and to promote a positive image of our industry, If such a levy could come to fruition this will undoubtedly pursue the Australian producers desire to make the consumer more aware of the egg industry as an important farming industry.

It would be appreciated if this matter could be discussed the the next meeting of the Board in March.

Yours faithfully,

KEVIN
