Mr. S. Crabb, M.P.
Minister for Transport,
35 Spring Street,
MELBOURNE. 3000

Dear Mr. Crabb,

It has been brought to our attention that since the closure of the train services to country areas the T.R.B., has banned the transporting of live chickens on the bus service which has replaced the trains.

I am writing to object most strongly to this as it is discriminating against country producers, particularly small family farmers who have only a small order of chickens, and no alternative means of delivery.

Our Association is very concerned about this development and request immediate action from your Government.

Yours sincerely,

K. Fitzgibbon,
SECRETARY.
