Mr. Richard Guy,
Manager,
Crystal Egg Co.,
Garsed Street,
BENDIGO. 3550

Dear Richard,

At our Annual Conference last week I was instructed to write to you complaining about the service at the Grading Floor. Producers have been unable to collect their previous deliveries trolleys and others have had to wait while their eggs are graded.

At these times when the Board is trying to get a top quality egg into the shops in the shortest possible time; and Producers are required to obey more stringent quality controls it is not good enough when eggs that can be up to 8 days old have not been graded.

We believe with the machine your Company is using, plus the falling number of deliveries you are required to handle, either you are working understaffed or the present staff are not competent enough.

We sincerely hope that this situation will be improved without delay.

Yours sincerely,

K. Fitzgibbon,
SECRETARY.
