Dear Charles,

In reply to your letter of 2nd June, 1986 to McDonald, Scott and Waters (Barristers and Solicitors), it appears that the Board does not have to treat everyone as equal.

The disturbing thing is that as producers fall by the wayside, this will further increase transport costs. The genuine country producer who produces as good as or better product will be unable to operate as a viable business.

Our Q.C. has found discrimination against country producers; but at this point in time we wish to take no further action.

Yours sincerely,

K. Fitzgibbon,
SECRETARY.
