STRATHFIELDSAYE, 3551

23rd July, 1987.

Professor Allan Fels,
Prices Commissioner,
228 Victoria Parade,
EAST MELBOURNE, 3002

Dear Professor Fels,.

Further to our discussions with you on 7th July, I am enclosing a copy of The Egg Farmers of Victoria Newsletter for the month of June, 1987, which shows clearly that Total sales of Shell Eggs have only increased 0.35% over the previous 12 months. This bears out our statement that the reduction of 12 cents per dozen had no effect the consumers demand for eggs.

I would also like to inform you that due to rises in price of various components in poultry feed, there was a rise of \$10.00 per tonne on all types of prepared poultry feed on Monday 20th July, 1987.

These points may help you in your considerations re the future of the poultry industry.

Yours sincerely,

K. Fitzgibbon,
SECRETARY.
