

Copy - 3 Dec 88

Wicks Rd.,
Maiden Gully 3551
3/12/88

The Secretary
Egg Farmers Of Victoria
Keysborough 3174

Dear Sir,

A number of small producers in this area are concerned that the egg washer at Crystal, which was to be operational in August is not yet usable. Our Association on their behalf would like to know ---

1. When will it become operational?
2. What is the problem that is causing the holdup?
3. If it is not the right machine for the job, who was responsible for its purchase?

4. Regarding costs - Who is responsible for all charges, storage and any alterations, plus installation costs up to the time of it giving a satisfactory performance?

Are producers in the North of Victoria being again placed at a disadvantage?

Yours faithfully,

J. Heard

Sec. South Bendigo Branch.
